

Project Overview

As of April 18, 2012

Current conditions on Alum Creek Drive,
looking south to Williams Road

Alum Creek Drive – State Route 104 to Williams Road

Description and Benefits: Project will widen street to five lanes and include improvements such as curbs, storm system, gutters, drainage facilities, multi-use trails for pedestrians and bicyclists, *Americans with Disabilities Act*-compliant curb ramps, improved mast-arm signals, street lighting and landscaping. The finished project will improve drainage, provide safer pedestrian, traffic and bicycle facilities and encourage redevelopment in the corridor.

Schedule:

Anticipated completion dates:

Utility relocation, June 2012; construction bidding, spring 2012;
construction completion, autumn 2014.

Status:

Project is scheduled to bid in spring 2012.

Costs:

Design, right-of-way acquisition and utility relocation	\$6,807,000
Construction and inspections	\$19,140,000
